

ENGINEERED FOR PERFORMANCE. CONFIDENCE FOR TOMORROW.

- PRECISE COMPRESSOR MODULATION
- VAPOR-INJECTION TECHNOLOGY
- HOT GAS REHEAT
- MODULATING INDOOR BLOWER
SINGLE ZONE VAV
- MULTI-ZONE VAV ZONING
- BACnet[®] MS/TP CONNECTIVITY*
- IoT / CLOUD-ENABLED SERVICES

DAIKIN NEXIO MAX LIGHT COMMERCIAL INVERTER RTU FEATURES AND BENEFITS:

REAL-WORLD EFFICIENCY. YEAR-ROUND RELIABILITY.

- » Optimized for part-load performance delivering up to 20+ IEER for low operating costs
- » Cold-climate capable, operating down to -13°F
- » 85% heating capacity retained at 14°F for dependable comfort
- » Modulating indoor blower with single-zone VAV for precise airflow and comfort control

CONFIGURABLE OPTIONS

- » Multi-Zone VAV capability to match diverse space requirements
- » Modulating Hot Gas Reheat for outstanding occupant comfort

INTELLIGENT SYSTEM INTEGRATION

- » Factory-installed BACnet[®] for seamless BAS connectivity
- » Daikin HERO platform enables remote monitoring, diagnostics, and predictive alerts

DESIGNED FOR TOMORROW

- » Uses R-32 refrigerant — a proven, low-GWP solution supporting sustainability without compromising performance

NEXT-LEVEL **EFFICIENCY**. NEXT-LEVEL **COMFORT**.
NEXT-LEVEL **INNOVATION**. NEXT-LEVEL **CONFIGURATION**.

Proven and Future-focused:
Features R-32 low GWP
(Global Warming Potential) refrigerant.

Daikin Inverter (Variable-speed)

Compressor: Adaptive technology revolutionizing how Daikin systems optimize temperature control, support energy efficiency, and maintain indoor comfort..

Real-Time Remote Monitoring and Control

- » Intuitive, customizable dashboard provides the quick status of connected units and sites.
- » Animated piping diagram based on system mode of operation.
- » Download or view historical data (up to 5 years) with built-in plotting capabilities.
- » Alarm dashboard with automatic email notifications when an alarm occurs.
- » The alarm details page provides in-depth information regarding an alarm with a detailed description of

the alarm, possible causes, tech tips, and a comment section.

- » With Daikin *HERO* Pro Edge, building owners get full control of the *NEXIO* Max Inverter RTU and can manage *VRV*, RTUs, and third-party devices from one platform. Owners can also tailor the system and build a customized control bundle.
- » Advanced scheduling function, configurable alarms, and interlock programming for automated equipment control.

DAIKIN <i>NEXIO</i> Max	
SERIES ID	DV Series
SYSTEM TYPE	Heat Pump
TONNAGE RANGE	7.5 - 10 Tons (Initial Phase)
COMPRESSOR	
CONNECTIVITY	Digital Controls with BACnet® (Standard)

BACnet® is a trademark of ASHRAE

DAIKIN TECH HUB APP

Your go-to app for servicing Daikin products.

- » **All-in-One Access:** Specs, manuals, wiring diagrams, videos, and more!
- » **Smart tools** for error code troubleshooting, field settings, refrigerant calculators.
- » Check matchups/spare parts (and more) with ease.
- » **On-demand 24/7** when you need it!
