

The interactive Daikin *SplitXpress* Selection Tool provides a complete product selection to help design the appropriate solution for projects.

Supported Daikin Products include: Single and Multi-zone, *SkyAir*, Unitary Split, and Light Commercial Split systems.

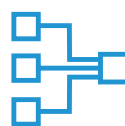

Developed to help contractors select Single and Multi-zone, *SkyAir*, Unitary Split and Light Commercial Split products based on load requirements and feature/operation preferences of the home or business owner. At the end of the selection, a basic quote and detailed report can be generated.

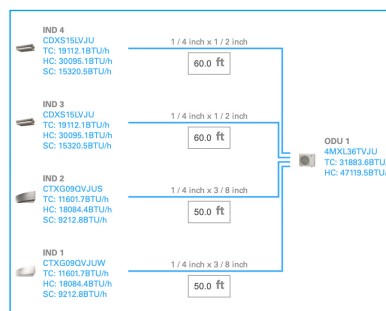

Find the right units, fast.

SplitXpress makes it easy to capture customer needs and preferences. As you begin making selections, the tool will ensure all products are compatible as you go.

Easily set up your systems.

Once you've selected your units, *SplitXpress* will help you configure your systems. Complete with system validation (errors and warnings), you'll have everything you need to set it up right.

Generate reports in a snap.

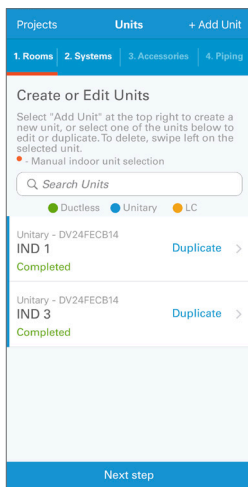

SplitXpress pulls information directly from Daikin City to provide all the system details, material lists, and wiring and piping diagrams to help with successful installations.

SplitXpress Features

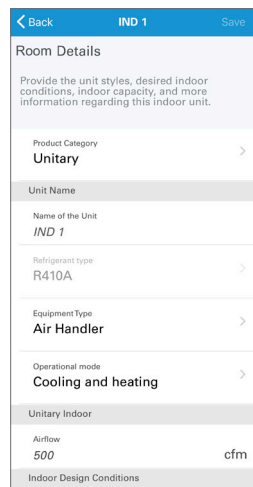

CREATE:

Capture customer needs and preferences. As you begin making selections, the tool will ensure all products are compatible as you go.

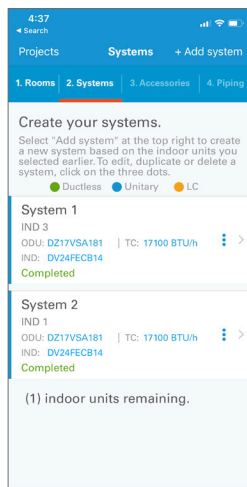

CUSTOMIZE:

Select features to help enhance the Daikin product experience based on everyday needs of your customers.

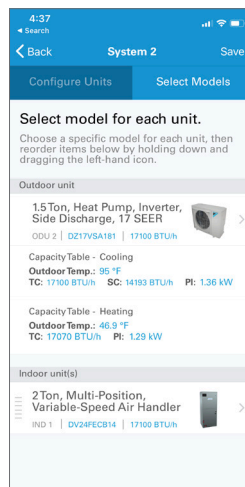

CONFIGURE:

Once you've selected the units, this tool will help you configure your systems. Complete with system validation (errors and warnings), you'll have everything you need to help with installation.

REVIEW:

Review and confirm all project information before generating the report.

REPORT:

Now, you can leave every customer with a full report. Reports can include system details, material lists—and even a full quote that factors in rebates, warranties, labor costs, and more.

Project Syncing between App and Websites:

With the ability to sync projects from Web to Mobile apps, you can make changes easy while on the go.

Language Support:

The Daikin SplitXpress App supports English, Spanish, and French.

AUTO ACCESS

All users who have mini-split, multi-split, SkyAir, unitary, light commercial access in DaikinCity are automatically provided access of SplitXpress Website and SplitXpress Phone Apps.
